## OUR ENERGY POLICY

*“Doing the same job with the least energy consumption, using our energy efficiently, and avoiding the waste of energy during and after electricity power generation are among our most important priorities as GALATA WIND ENERJİ A.Ş.”*

-  Our objective is to reduce our energy consumption in the targeted quantities every year, to increase our energy efficiency, and to reduce energy losses through continuous improvement activities.
-  We make statistical estimates about our power consumption taking into account our production variables, climate conditions, overall working durations, and other likely effects, and set improvement targets based on such estimated value, in order to attain our objective.
-  We prepare improving activity plans to reach our goals.
-  We regularly monitor our power consumption. We compare the actualized power consumption against the estimated values and assess our performance.
-  We conduct assessments in all our procurement processes that can affect our performance with the priority on energy, leading with energy efficiency, and we make our decisions accordingly.
-  We inform our employees with various communication tools and training course about our policy and objective, and ensure their awareness.
-  We keep up with, and implement, all legislation and standards we are obliged to comply with.

Chairman of the Board of Directors
