OUR MISSION

To become the leading, exemplary, preferred, and reputable institution that comes to mind first in Turkey and across the region, with a business model that is environmentally sensitive, reliable, and sustainable, while reducing our country's external dependency using renewable energy resources in the right manner.

OUR VISION

To generate electricity power and to create sustainable value for our country and our clients with our competent personnel, respecting the rules of the society, and in compliance with our respectful, reliable, and transparent management principles.

We have adopted the below principles as our policy to be able to fulfill our vision and mission.

OUR PRINCIPLES, CRUCIAL VALUES, AND POLICIES

-  **Customer Satisfaction:** The satisfaction of our clients and the community is the focal point of all our activities. We complete and deliver our undertakings fully and in a timely manner.
-  **Continuous Improvement:** We monitor our processes with quality, environmental, occupational health and safety, and energy performance indicators, and we try to continuously improve our system before non-conformities occur.
-  **Highly Qualified Employees:** We work as a zealous team the members of which are conversant with their relevant areas in all the services we deliver, knowledgeable in their fields, who truly love their jobs, who are responsible for, and proud of, every task they accomplish, qualified and free of personal conflicts, and who work in a target-driven manner.
-  **Protecting Human Health and Environmental Health:** We regard mitigating all risks which may adversely affect human health and environmental health during our work processes, and to raise awareness among our employees and within the community an indispensable component of our main tasks.
